Article 1 The following Regulations are established in accordance with Article 6 of the “Regulations Regarding International Students Undertaking Studies in Taiwan,” issued by the Ministry of Education (MOE).

Article 2 An individual of foreign nationality, who has never held nationality status from the Republic of China (ROC), and meets the following criteria is qualified to apply for admission under this regulation:

1. has never studied in Taiwan as an overseas Chinese student.
2. has not been given a placement to study in an academic institution in Taiwan via the University Entrance Committee for Overseas Chinese Students under the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan during the year of their application.

An individual of foreign nationality who meets the following requirements and who has resided overseas continuously for the most recent 6 years is also qualified to apply for admission under this regulation. However, an individual who plans to apply for study at a department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for no less than 8 years.

1. An individual who also is a national of the ROC, but does not hold or has had a household registration in Taiwan.
2. An individual who also was a national of the ROC but has no ROC nationality at the time of their application shall have an annulled status regarding their ROC nationality for no less than 8 years after an annulment of ROC nationality by the Ministry of the Interior.
3. Regarding individuals mentioned in the preceding 2 subparagraphs, they must not have studied in Taiwan as an overseas Chinese student nor been given a placement through the University Entrance Committee for Overseas Chinese Students during the same year as making the application.

According to the Education Cooperation Framework Agreement, a foreign national who was selected by a foreign government, organization, or school, and does not hold a household registration from the time of their birth is not subject to the limitations as prescribed in the preceding 2 paragraphs after receiving the approval from MOE.

The six-year and eight-year calculation period as prescribed in Paragraph 2 shall be calculated

from the starting date of the semester (February 1 or August 1) as the designated due date for the time of study.

The term “overseas” as prescribed in Paragraph 2 is limited to countries or regions other than Mainland China, Hong Kong, and Macau; the term “reside overseas continuously” means that an individual may stay in Taiwan for no more than a total of 120 days per calendar year. If the calculated calendar year is not one complete calendar year, their stay in Taiwan should not exceed 120 days within the calculated calendar year period. The only exceptions to this method of calculation are for those who fulfill one of the following requirements with written supported proof:

1. Attended overseas youth training courses organized by the Overseas Compatriot Affairs Council or technique training classes accredited by MOE;
2. Attended a Mandarin Chinese language center at a university/college of which foreign student recruitment is approved by MOE, and to which the total length of stay is less than 2 years;
3. Exchange students, whose length of total exchange is less than 2 years; or
4. An Internship in Taiwan which has been approved by an authorized central government agency, to which the total length of stay is less than 2 years.

An individual, who has both foreign and ROC nationalities and has applied for an annulment of their ROC nationality before February 1, 2011, the effective date of this amendment, will then be qualified to apply for admission as an international student under the amendment effective before February 1, 2011, and will not be subject to the limitation as prescribed in Paragraph 2.

For the purposes of these Regulations, individuals who meet the conditions prescribed in Article 2 of the Nationality Act shall be deemed nationals of the ROC.

Article 3 An applicant of foreign nationality, concurrently holding a permanent residence status in Hong Kong or Macao, having no history of a household registration record in Taiwan and, at the time of application, has resided in Hong Kong, Macao, or another foreign country for no less than 6 years is qualified to apply for admission under these regulations. However, an individual who plans to apply for study at a department of medicine, dentistry, or Chinese medicine must reside overseas continuously for no less than 8 years.

The term “reside overseas continuously” mentioned in the preceding paragraph means an individual may stay in Taiwan for no more than a total of 120 days per calendar year. However, such a term may be exempt, if any of the conditions prescribed in Subparagraphs 1 through 4, Paragraph 5 of the previous article applies and is supported with written proof, and the said domestic length of stay shall be excluded from the overseas length of residency.

An applicant being a former citizen of Mainland China and holds a foreign nationality, having no history of household registration record in Taiwan, and at the time of application, has resided overseas continuously for no less than 6 years is qualified to apply for admission under these regulations. However, an individual who plans to apply for study at a department of medicine, dentistry, or Chinese medicine must reside overseas continuously for no less than 8 years.

The term “reside overseas continuously” means an individual may stay in Taiwan for no more than a total of 120 days per calendar year. However, such a term may be exempted if any of the conditions prescribed in Subparagraphs 1 through 4, of Paragraph 5 of the previous article, applies and is supported with written proof, and the said domestic length of stay shall be excluded from the overseas length of residency.

The six-year and eight-year calculation period as prescribed in Paragraph 1 and Paragraph 3 shall be calculated from the starting date of the semester (February 1 or August 1) as the designated due date for the time of study.

The term overseas as prescribed in Paragraph 5 in the previous article shall apply to Paragraphs 1 to 4.

Article 4 International students applying to study in Taiwan in accordance with the preceding two articles may do so only once. Continuation of studies in Taiwan shall be handled in a manner

identical to the admission procedures for local students.

International students who meet any of the following conditions shall not be subject to the restrictions stipulated in the preceding paragraph when, after submitting a previous application, they apply to continue their studies in Taiwan or reapply for admission to study in Taiwan.

1. Application to study for a master's degree or higher levels of graduate studies shall be handled in accordance with FJCU regulations.
2. For international students applying to take an undergraduate course or lower levels of study, if the duration of their stay in Taiwan is less than a year, and if they were to drop out from school or lose their student status, they may reapply to study in Taiwan for a maximum of one time.
3. International students who meet the conditions set forth in Article 2, Paragraph 1 may apply for admission to an undergraduate program other than those in medicine, dentistry, or Chinese medicine, and such application shall be limited to one time only.

International students who have been expelled or have lost student status due to misconduct, unsatisfactory academic performance, or violation of laws or school rules and regulations, shall not be allowed to reapply to the school under the provisions stipulated in the preceding two paragraphs of this article.

#### Article 5

The actual number of international students recruited and enrolled at FJCU must in principle not be more than an additional ten percent above the total admission quota for the previous academic year. The number should be calculated into the total number of positions at FJCU yearly and reported to MOE for ratification. If the number of international students applying for admission to FJCU for an academic year exceeds more than ten percent above the total admission quota of the previous academic year, FJCU must submit a plan for the increased number (which include quality control strategies and supporting measures) to MOE for approval. Degree programs offered by FJCU and collaborating foreign universities that have been approved on a case-by-case basis by MOE are not subject to this restriction.

If the quotas for admission for the previous academic year, which have been allocated for local students, have not been filled, FJCU may give the quotas to international students, and submit the figures to MOE for approval.

The admission quota prescribed in Paragraph 1 does not include international students with a non-degree status.

#### Article 6

Pursuant to these regulations, when recruiting and accepting international students across all educational levels, FJCU makes a brochure for enrollment of international students which clearly set forth the enrollment method, admission eligibility procedures, the departments and graduate programs that recruit international students, the language of instruction of each recruiting department, language proficiency requirements, the duration of study, admission quotas, rules related to eligibility for application, requirements for financial statements, regulations regarding tuition and fees, information on scholarships, and other relevant admission requirements.

The enrollment methods of FJCU include, but are not limited to, posting enrollment information on the University's or the government's website, and participating in overseas education fairs. With the exception of publicity, promotion and assisting students to complete the necessary procedures for coming to Taiwan, FJCU shall not delegate enrollment of international students to outside organizations, corporations, groups or individuals. In addition, FJCU shall verify in a timely manner whether it has collected unjustified fees from international students, established lending relationships, or otherwise violated relevant laws and regulations, and may, if necessary, request clarification from students who have applied for admission.

FJCU shall not provide any information that is inconsistent with the enrollment regulations, enrollment brochures, or related regulations when handling matters related to the enrollment of international students on its own or through an external agency, corporation, organization,

or individual.

However, academic credentials earned from institutes or branches established in Mainland China by foreign schools shall require public notarization in Mainland China and be verified and examined by an institute established or appointed by, or through a private agency commissioned by the Executive Yuan.

3. Financial proof that shows financial sustainability for study in Taiwan (equivalent to at least NT\$200,000 based on the stipulated tuition and fees of the relevant department or institute to which the student is applying), or proof of full scholarship provided by a government agency, university, college, or private organization.

4. Additional documents and materials required by the intended departments, graduate programs, or the university.

If the said documents have been verified, the school may request an examination of the documents.

The FJCU Office of International Education accepts applications from international students and conducts a preliminary review to determine if the provided documents are complete; those applications that pass the preliminary review are sent to the relevant departments for further review in accordance with their admission criteria. After the list of qualified applicants

has been reviewed and approved at the University Council, the Office of Academic Affairs will issue a Certificate of Admission to all applicants who have been admitted and have confirmed their intent to enroll.
