Article 1 The following Regulations are established in accordance with Article 6 of the “Regulations Regarding International Students Undertaking Studies in Taiwan,” issued by the Ministry of Education (MOE).

Article 2 An individual of foreign nationality, who has never held nationality status from the Republic of China (ROC), and meets the following criteria is qualified to apply for admission under this regulation:

1. has never studied in Taiwan as an overseas Chinese student.
2. has not been given a placement to study in an academic institution in Taiwan via the University Entrance Committee for Overseas Chinese Students under the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan during the year of their application.

An individual of foreign nationality who meets the following requirements and who has resided overseas continuously for the most recent 6 years is also qualified to apply for admission under this regulation. However, an individual who plans to apply for study at a department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for no less than 8 years.

1. An individual who also is a national of the ROC, but does not hold or has had a household registration in Taiwan.
2. An individual who also was a national of the ROC but has no ROC nationality at the time of their application shall have an annulled status regarding their ROC nationality for no less than 8 years after an annulment of ROC nationality by the Ministry of the Interior.
3. Regarding individuals mentioned in the preceding 2 subparagraphs, they must not have studied in Taiwan as an overseas Chinese student nor been given a placement through the University Entrance Committee for Overseas Chinese Students during the same year as making the application.

According to the Education Cooperation Framework Agreement, a foreign national who was selected by a foreign government, organization, or school, and does not hold a household registration from the time of their birth is not subject to the limitations as prescribed in the preceding 2 paragraphs after receiving the approval from MOE.

The six-year and eight-year calculation period as prescribed in Paragraph 2 shall be calculated from the starting date of the semester (February 1 or August 1) as the designated due date for the time of study.

The term “overseas” as prescribed in Paragraph 2 is limited to countries or regions...
other than Mainland China, Hong Kong, and Macau; the term “reside overseas continuously” means that an individual may stay in Taiwan for no more than a total of 120 days per calendar year. If the calculated calendar year is not one complete calendar year, their stay in Taiwan should not exceed 120 days within the calculated calendar year period. The only exceptions to this method of calculation are for those who fulfill one of the following requirements with written supported proof:

1. Attended overseas youth training courses organized by the Overseas Compatriot Affairs Council or technique training classes accredited by MOE;
2. Attended a Mandarin Chinese language center at a university/college of which foreign student recruitment is approved by MOE, and to which the total length of stay is less than 2 years;
3. Exchange students, whose length of total exchange is less than 2 years; or
4. An Internship in Taiwan which has been approved by an authorized central government agency, to which the total length of stay is less than 2 years.

An individual, who has both foreign and ROC nationalities and has applied for an annulment of their ROC nationality before February 1, 2011, the effective date of this amendment, will then be qualified to apply for admission as an international student under the amendment effective before February 1, 2011, and will not be subject to the limitation as prescribed in Paragraph 2.

Article 3
An applicant of foreign nationality, concurrently holding a permanent residence status in Hong Kong or Macao, having no history of a household registration record in Taiwan and, at the time of application, has resided in Hong Kong, Macao, or another foreign country for no less than 6 years is qualified to apply for admission under these regulations. However, an individual who plans to apply for study at a department of medicine, dentistry, or Chinese medicine must reside overseas continuously for no less than 8 years.

The term “reside overseas continuously” mentioned in the preceding paragraph means an individual may stay in Taiwan for no more than a total of 120 days per calendar year. However, such a term may be exempt, if any of the conditions prescribed in Subparagraphs 1 through 4, Paragraph 5 of the previous article applies and is supported with written proof, and the said domestic length of stay shall be excluded from the overseas length of residency.

An applicant being a former citizen of Mainland China and holds a foreign nationality, having no history of household registration record in Taiwan, and at the time of application, has resided overseas continuously for no less than 6 years is qualified to apply for admission under these regulations. However, an individual who plans to apply for study at a department of medicine, dentistry, or Chinese medicine must reside overseas continuously for no less than 8 years.

The term “reside overseas continuously” means an individual may stay in Taiwan for no more than a total of 120 days per calendar year. However, such a term may be exempted if any of the conditions prescribed in Subparagraphs 1 through 4, of Paragraph 5 of the previous article applies and is supported with written proof, and the said domestic length of stay shall be excluded from the overseas length of residency.

The six-year and eight-year calculation period as prescribed in Paragraph 1 and Paragraph 3 shall be calculated from the starting date of the semester (February 1 or August 1) as the designated due date for the time of study.

The term overseas as prescribed in Paragraph 5 in the previous article shall apply to Paragraphs 1 to 4.

Article 4
International students applying for schools in Taiwan in accordance with the two previous articles shall be limited to one application only. Continuation of studies at Fu Jen Catholic University (FJCU) shall be handled in a manner identical to the admission
procedures for local students, except for the following circumstances:

1. Application to study for a master’s degree or higher levels of graduate studies shall be handled in accordance with FJCU regulations.

2. For international students applying to read an undergraduate course or lower levels of study, if the duration of their stay in Taiwan is less than a year, and if they were to drop out from school or lose their student status, they may reapply to study in Taiwan for a maximum of one time.

International students who are expelled from school or lose their student status due to misconduct, unsatisfactory academic grades, violation of laws or school rules and regulations, shall not be allowed to reapply to the school under the aforesaid condition.

**Article 5**

The actual number of international students recruited and enrolled at FJCU must in principle not be more than an additional ten percent above the total admission quota for the previous academic year. The number should be calculated into the total number of positions at FJCU yearly and reported to MOE for ratification. If the number of international students applying for admission to FJCU for an academic year exceeds more than ten percent above the total admission quota of the previous academic year, FJCU must submit a plan for the increased number (which include quality control strategies and supporting measures) to MOE for approval. Degree programs offered by FJCU and collaborating foreign universities that have been approved on a case by case basis by MOE are not subject to this restriction.

If the quotas for admission for the previous academic year, which have been allocated for local students, have not been filled, FJCU may give the quotas to international students, and submit the figures to MOE for approval.

The admission quota prescribed in Paragraph 1 does not include international students with a non-degree status.

**Article 6**

Pursuant to these regulations, when recruiting and accepting international students across all educational levels, FJCU makes a brochure for enrollment of international students which clearly set forth the departments and graduate programs that recruit international students, the duration of study, admission quotas, rules related to eligibility for application, methods for carrying out reviews or special screening tests, and relevant admission requirements.

**Article 7**

Qualified applicants are required to submit formal applications with the following documents to FJCU during the application period stipulated in the statement of regulations issued every year. Those who pass the evaluation or examination will be allowed to enroll in FJCU.

1. Application form.
2. Academic credentials:

   (1) Academic credentials from Mainland China: The Regulations Governing the Accreditation of Schools in Mainland China shall apply.

   (2) Academic credentials from Hong Kong or Macao: Academic Credential Verification and Accreditation Methods adopted in Hong Kong and Macao shall apply.
